

NEED A LITTLE EXTRA GUIDANCE TO RULE THE GAME?

Just remember, the aim is to collect the most YES combinations.
 A 'YES' is like the superhero trio of cards where each of the 4 attributes(3 letter, 3 colours, 3 numbers, 3 letter weights:
 difference sometimes subtle enough to sharpen your typographer's eye ;))
 is either the same or totally different.

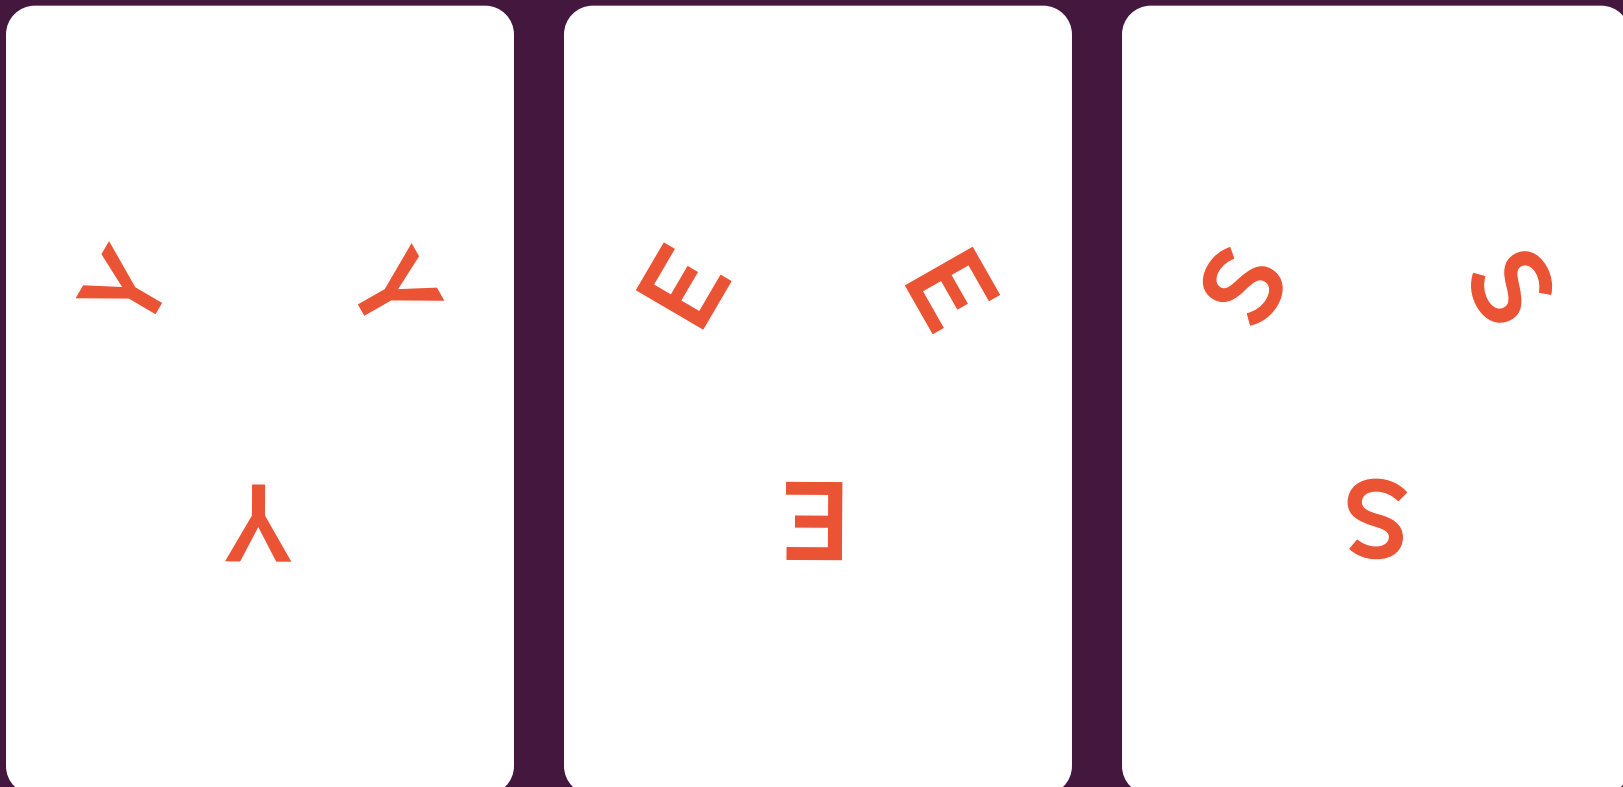

Check out these examples and get ready to show your card mastery!
